

## ***Fact Check - Dubious source:***

**The Center for Disease Control is not credible.**

### **Marijuana**

**CDC says it is addictive.**

### **Measles**

**Lies about child fatality.**

### **Gunshot victims**

**CDC over-guesses by 37%**

**Now the CDC flip-flops on mask wearing, lies about deaths and cases, lied that it had a coronavirus test ready, continually lies about susceptibility of healthy people, phantom "second waves," etc.**
